

Project-Helix — User Manual & Operating Guide

Student: Shaik Yusuf John (25B11CS893) | Aditya University

1. Getting Started

1. Launch database runner: `python database/init_db.py`
2. Start web server: `python app.py`
3. Access dashboard at `http://localhost:5000`

2. User Guide by Module

- **Dashboard:** View real-time KPI counters across all 9 entities.
- **Startups & Teams:** Register ventures and allocate team members.
- **Recruitment:** Publish and manage open job positions.
- **Tasks & Projects:** Plan project sprints and track task execution.
- **Funding:** Create fundraising rounds and record investor capital tickets.
- **Reports:** Review analytical views (`vw_startup_summary`, `vw_funding_details`).
